One of the Customers.

New Delhi, March 31, 2019: Hyundai Motor India Ltd, the country's second largest car manufacturer and largest exporter since inception, today announced that Hyundai VENUE, its upcoming SUV will be India's first true Smart Connected SUV with most advanced Connectivity solution - "Hyundai BlueLink". The Hyundai BlueLink is Hyundai's global technology which will be introduced in the Indian market with 33 features out of which 10 would be India specific features for most practical and holistic connectivity with Safety, Convenience and various Vehicle Management Relationship Services. The Hyundai BlueLink will herald a new era of smart connected cars in India.

Hyundai BlueLink is developed and rigorously tested in India for the customer keeping in mind their day-to-day needs, the challenges faced on Indian roads while driving and most importantly their need for Safety of their self and that of their vehicle. The SOS (Save Our Souls), Road Side Assistance and BlueLink button are on the Inside Rear View Mirror (IRVM) for easy accessibility. The BlueLink provides first in industry safety features like Vehicle Theft Tracking and localization for recovery of stolen vehicles, The Speed Alert, Geo Fence Alert, Peak Notification and SmartDestination brings complete peace of mind and assurance of Hyundai's promise of safety. The remote control functions like Engine Start/Stop, Climate Control, Door Lock/Unlock, Horn, Head & Light and Vehicle Status will provide unparalleled experience to the customers in the Indian driving conditions.

Commencing on the introduction of Global Connected Technology, Hyundai Motor India Ltd, MD & CEO, Hyundai Motor India Ltd, "We are delighted to unveil the Hyundai VENUE, its upcoming SUV will come equipped with the Hyundai Global BlueLink Connectivity solution for our customers in India making it the Most Smart Connected SUV in the Market. The Connected car technology is becoming more interactive and intuitive connecting people to their families, work, and society."
